Founder, Principal Investor

Jason Lin, who was born in Pinnan, Guangxi, majors in foreign economy and has 20-year-experience in significant international projects and bidding.

In 1990s, Jason Lin worked in key provincial-level Chinese state-owned trading companies and was assigned to Egypt and other Middle East countries. He stayed in these nations in long periods and he is responsible for establishing overseas branches.

At the end of 1990s, Jason Lin invested to found own-brand enterprise --- TOPSUN Group and water meter and cast iron pipe manufacturing and research base. He led and organized Chinese industrial resources to participate in bidding and infrastructure projects of large government and military enterprises in Egypt, Syria, Iraq, Jordan and other Middle-East nations for a long time. Based on these experiences, Jason Lin specialized in investment and cooperation among multinational enterprise as well as international trade and global resources allocation.

Jason Lin has been concentrating on Internet and high-tech industry investment since 2007. He successfully invested and developed BBQ software, which is based on global networks and project database. On the base of BBQ software, Jason Lin founded global human resources and project platform --- BBQ Global Connection.

### **Main experiences:**

- In 1993, he took charge of chief representative of Middle East business of Guangxi Machinery Equipment Import and Export Corporation.
- In 1998, he invested fund to found TOPSUN Machinery Equipment Limited Liability Company.
- In 2000, he established TOPSUN Group, whose headquarter is located in Zhuhai, Guangdong, China.

TOPSUN Group is the first batch of Chinese private investment companies that obtain import and export rights. By investing China pipeline manufacturing base and participating in overseas industry competition for nearly 20 years, TOPSUN Group explores a group operation model and accumulate enriched multinational investment and cooperation experiences. What's more, TOPSUN Group establishes industrial cooperation relationship with the military, government and private businesses

in the United States, Egypt, Syria ,Jordan, Lebanon and other Arab and North American countries in terms of major bidding projects, which makes TOPSUN a renowned brand.

- In 2007, Jason Lin realized that traditional resource consuming industries are confronted to risks and the world faces change of global Internet era. Consequently, he decided to shift his investment focus from traditional industries to capital allocation investment strategy, which combines real economy with virtual economy.

After 10 years' practices and model research, Jason Lin successfully accessed into high-tech and global internet investment area. Moreover, he led his team to develop and operate O2O big resources platform of global human resources database and experts database --- BBQ Global Connection.

- In 2015, BBQ Global Connection has already held more than 1,000 global summit and forum, which accumulates global resources to form strong base of BBQ big resources: network and experts bank. That is to say global premium network resources of BBQ Global Connection has covered 5 five continents.

BBQ Global Connection insists on the investment mind of “develop business by using concept of public interest, develop public interest by using concept of business” and continue to explore and practice global public interest and continuous business development. BBQ Global Connection has acquired high mutual trust and recognition from governments, Chambers of commerce, international organizations, public interest groups, research institutions, universities, celebrities, investment elites, grassroots youth, small and medium entrepreneurs. BBQ Global Connection will create a win-win investment philosophy and financial model by cooperating and not gaming with global network of resources.
